Important Letter.

Messrs. Coit & Morris

Dear Sirs—I feel impelled to send you a few lines relative to your Downs Elixir which, for the benefit of the sufferers, if you think worthy you are at liberty to make public. About a year and a half ago my mother became sick, so that in a short time we began greatly to fear for her life. Her symptoms were bad cough, pain in the side and stomach, night sweats, and other premonitory signs of pulmonary consumption. We consulted our best physicians who gave her little or no relief, and finally pronounced her case incurable consumption. She continued to become weaker, and the symptoms more confirmed.

About this time at the suggestion of a friend, we concluded to try Downs Elixir. Having procured a bottle from your agent (S H Bryant of Eastport) she commenced taking it. At first it seemed only to mitigate the severity of the symptoms but in a short time her health began evidently to improve. It eased her cough, relieved her night sweats, and greatly improved the tone of the whole system. After having continued its use most of the time for nearly a year, she calls herself cured. She is now able to go about the house, and superintend affairs as usual. Under God we believe that to Downs' Elixir alone she owes the preservation of her life and the restoration of former strength and energy. We have also used it in our family in other cases for which it is recommended in the pamphlets, with unvaried success. Yours truly,

(Signed) SWAN P. NORDSTROM

The above is only one of a thousand similar letters which we are constantly receiving from all parts of the country, almost daily.

DOWNS ELIXIR is unquestionably the best article known for the cure of COUGHS, COLDS and CONSUMPTION. It is more certain to give relief in all cases of ASTHMA—also a perfect cure—than any thing hitherto offered to the public.

In cases of HOOPING COUGH it needs only to be tried to give it preference over all other remedies. It immediately breaks up the cough, and renders a most gratifying result in relieving a scourge and terror. For the CROUP it is a positive cure. We speak with confidence for it has never failed and we believe never will, when used according to directions.

Pamphlets giving a full description of it to be had of agents in almost every town and village in the country, and of the following who are prepared to sell at wholesale or retail

DR. CUMMINGS'S

Compound Extract of Sarsaparilla and Dock.

THIS article above named are the principal ingredients in this medicine. With these roots of vegetable origin are combined, designed to render them more active and consequently more valuable efficacy.

The Dock or rumex sperlandi, now ranks as a medicinal plant, second to no one of the vegetable kingdom. With the aid of a distinguished chemist whose the proprietor has consulted in the preparation of the compound, he has succeeded in overcoming the difficulty of procuring the extract of the root in any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of this principal substance of the compound and is pertinently assisted that they possess all the properties which he has been ascribed to them. Each of the contents of the medicine of uniting them which has resulted in the production of the compound. In this the ingredients are found so act in harmony and possess those qualities which they separately possess.

A larger portion of Sarsaparilla is usually than has generally been supposed. The extract used to be reduced in that liquid liable to decomposition is prepared by subjecting the roots to the action of the menstrua usually employed in extracting the virtues of all simples, about heat as any other ascertaining agent. None is permitted to be used in the compound that has not been tried by this process and that has been less than one year prepared.

The Compound is recommended for Scrofula Erysipelas, Ulcerous affections, Eruptions and Mercurial diseases. Also for the innumerable maladies arising from sedentary employments, occupations and harassing and fatiguing duties, or the oppressive exposures to extremes of heat and cold, overtasking of the physical powers and all abuses of the constitution among which are Nervousness Pain in the Back or the Liver, Bilious Complaints and Dyspepsia or Indigestion.

For diseases of the Liver, also, which the proprietor became familiar in his practice in Havana a number of years, and the disease is still prevalent there, as well as all parts of South America, this medicine is believed to be in favor with the medical profession in general to whom he is known.

Prepared only by Dr Stephen Cummings and sold at wholesale and retail by John Burgess & Co No 113 Middle street and Edward Mann No 153 Middle street—agents for Portland.

Sold in Bangor by G W LADD and JOSEPH S INGRAHAM.

Permanent Cure of Dyspepsia and Habetua Costiveness.

To Dr Relph

DEAR SIR—I have now finished the whole of the almost precious medicine for your inestimable Pills. I have used them for my self and children on occasion for some years past, and have received the most decisive benefit from them. I have also recommended them to many of my friends and neighbors, and I have reason to suppose they have never sought a thorough and permanent change in respect to the functions of the stomach. From habitual costiveness and the voiding of undigested slimy stools I am completely relieved. The painful and distressing symptoms of Dyspepsia with which I was continually afflicted, have so completely passed away, that I hardly know what they were. Any one can gain evidence of this or a more full development of my case, if at your service.

Except to an old friend or near relative I would not have my name published in connection with Physicians and Pills, as I have been the only physician in my house for many years.

There are many of my friends around, and more and more who can bear your pills as a family medicine and for chronic cases. Yours truly,

GREAT SUCCESS OF UPHAM'S

FILE ELECTUARY.

Dr. Upham—Sir: I cannot refrain from expressing my sincere thanks for the relief I have experienced by the use of your valuable File Electuary. I have been a public character for 10 years past, up to which time I was considered one of the most healthy men in Boston and the surrounding country. I was obliged to give up my business, and was confined to my house and bed for many months. I had tried all the Doctors in Boston and the surrounding country, and twice submitted to the [illegible] of my friends I was induced to try a box of your Electuary. I had not used more than half a box before I found myself much relieved, and before I had used the whole box I was entirely cured. I have been troubled with the Piles for many years, and have had them in the worst form, and have suffered the most excruciating pain. I have used many remedies, but never found any relief until I used your Electuary. I have recommended it to many of my friends, and they have all found relief from it. Labor and its Reward.

Labor, in its comprehensive and just sense, is the use of all the mental and working faculties which man possesses or can command, a the great civilizer and equalizer of society It is the instrument and element of progress Wherever labor is allowed to work out its highest results and just in proportion as it is permitted to do so, we find the State of Society correspondingly elevated There is no exception to this rule yet found in the history of mankind

In England we see the most astounding results produced by a partial and arbitrary and adulterous connection between labor and capital, But great as the results are, they would be vastly increased in case of a true and virtuous union between them, such as we have many examples in our land though as yet upon a comparatively small scale

The greatest obstruction we meet with in this country to the best results of labor, in the comprehensive and just sense in which we use the term, is the competition arising from the adulterous union of capital with labor in Europe by which the capitalists there are enabled to maintain a perpetual experiment of how much labor can perform and how little consume

This obstruction we may remove in a great measure by a wise and prudent discrimination in the terms of the admission into our country of the fruits of European capital and labor The ability thus to discriminate was long sought by our political fathers and which they only found in the Union of the States And as we now possess the ability to save ourselves from injurious competition and thus promote the extension and power and usefulness of our own labor nothing in this world appears plainer than we should do so No one it would seem could complain of this, unless perchance his personal interest was adverse to that of labor, and also his case forms so singular an exception that it scarcely plants should be without effect A thousand differences may indeed arise as to the amount of special discrimination to be made but these are quite independent of opposition to the principle of discrimination but we know of no just cause of difference as to the principle itself This discrimination we must have, or labor must languish and but partially and imperfectly produce its legitimate results—Without it, labor here cannot be well diversified and we cannot rapidly and efficiently develop and unfold, and reap the benefit of the natural resources of our State and country and give to labor its true standing and just reward.

"We are going on badly here, very badly in spite of the treaty celebrated between Governor Barbachano and the Indian Pat, the Indians have entered the territory of this Province and have seized Iturbide and Chalchah, distant towns, twenty leagues from this city—which were deserted in the most cowardly manner by the troops appointed to defend them In fact the Indians can now go through every part of the whole country, for all the soldiers have come here to seek refuge, and I believe that if the Indian force were to surround this place how walls would not be strong enough to contain the fear of these valiant troops."

LAMARTINE.

Translated from the French of M de Cormenin

BY GODWIN BARBERT.

Concluded

After a travel of six months, M de Lamartine returned from the East, with grand ideas, and a beautiful book, a veritable epic of travels, which he had the first Julia, when the noble heart of the father and of the poet wept for like Rachel, he would not be comforted The book of Mr de Lamartine had a very confined success It seemed that the critics and the public had taken in earnest the modest lines of the preface, in which the author disappeared the work, but although unsatisfactory to the public, to the critics, and to M de Lamartine, those pages do not appear to negligent to us, as they were said to be believed to be Apart from the pictures, more or less correct, of the political views, it is certain that if sickness of style elevation of thought, freshness of imagery, and besides all that rapid and varied succession of scenes the most moving, constitute a beautiful work, the travelers in the East, is a book which will not die

Religion, History, Philosophy Politics, each contribute to inscribe it Let us try to analyse it rapidly And at first we see a man, tenderly happy by glory, by opulence by the heart, by tender affections of the domestic hearth, by the sympathies and admiration of the crowd who bends admiring all which he leaves takes by the hand his wife and his daughter, equips a vessel and entrusts to the waves these two portions of his heart, and all this because when a child, he read the Bible on the knees of his mother and that a commanding voice ceased from within not ceasing — Go weep upon the mountain where Christ wept; go sleep beneath the palm where Jacob slept And then when the anchor is weighed when the wind fills the sails, how people followed with anxiety the ship that bore a noble woman, a gracious child, and the poet a fortune of France How they read with pleasure all the details of interior arrangements How they loved the attentions of the husband and father—that crew of sixteen men who belonged body and soul for the poet that library of five hundred volumes that tent raised at the foot of the main mast, that arsenal of guns, of pistols and of sabres and those four cannons charged with laurel shot I have to demand two lines which are dearer than my own, said M de Lamartine, with mingled affection and fierceness In the passage from Marseilles to Smyrnah, the voyager wrote his book day by day, at the back of his cabin, or at evening on the deck amid the rolling of the vessel It is a varied mosaic combined but attractive, with more reflection, with certain aspirations looking backward on the past, with embraces of the present with cupidities thrown towards the future the whole interlaced with landscapes the colors of which might have been envied by Claude Lorraine The poet no sooner has passed the ship Bee the waves Bay, and inexhaustible valleys mountains, marine, angelus, joyous sunshine, and of scattered pearls All at once there came, mounted on a swift, charger, one of the most celebrated poets of Arabia He had been appointed that the ship might meet there a messenger, and he is come to put out with him Our poet accepts the defiance The child of Asia, and the child of Europe contented themselves, and rivalled each other as to who should find the most harmonious chants to celebrate the beauty of Lilli The pious and chill tongue of our France entered into strife with the supple and harmonious language which Johannes Antar spoke, but thanks to M de Lamartine, France was not vanquished

It should like enchantments that the poet made us in his train, across Greece, Syria, Judea Turkey and Servia The eye was dazzled, by all these fiery palaces, by all these poetical ruins, of peace, of grief of joy, of repose, of love, which I meet on all sides for before it The itinerary of Chateaubriand is all be hind him the work of a poet, of an historian and of a philosopher in which he examines the ruins of centuries, and enquires of them if they possess the secrets of the times which live no more That which is prominently is relief in the book of Lamartine in spite of Lamartine, himself, is the poet His work is pre-eminently that of a genius and passionate artist, exploring the beautiful under all its forms, seeking in life all its splendors, as an artist all its promises

Soon the traveller has thought of returning, The Dunkerque, had despatched him over the sea, a legislative commission He prepared himself for departure, read and broken hearted, for the same ship which had borne his beloved Julia to Italy, sailed for France

We should here finish as we were to stay as we both over all those beautiful pages each of which is in itself a gem Is there in the world scenes more grand or more picturesque of more novel than these? Make Lamartine a reclining upon the odoriferous flowers of Carmel, in the purest regions of the earth, by the side of Lilla that beautiful daughter of Arabia, whose long hair locks falling over her naked bosom, were braided on her head in a thousand tresses which rested on her brow should resemble a coronet of gold mingled with flowers of gardenias

The remarkable cures it has performed, and the unbounded confidence reposed in it by those who have used it, have induced the proprietor to prepare it in a more concentrated form, and put it up in quart bottles, to meet the wishes of those who have frequently called for a more powerful preparation than the usual Sarsaparilla preparations. New York, Nov 1, 1847.

Messrs A. B. Gough & Co.

Gentlemen—You will recollect that I bought a package of your Townsend's Sarsaparilla some time ago, to see if it would benefit my daughter, who was afflicted with a humor, and had been troubled with it for more than two years. She took one bottle, and was so much relieved that I purchased another, which entirely cured her. She has since remained perfectly well, and has had no return of the disease. I have also taken it myself, and found it to be a most excellent medicine for purifying the blood, and giving tone to the system. I have recommended it to many of my friends, and shall continue to do so, as I believe it to be the best blood purifier now before the public.

Respectfully, GEO. W. DAVIS,

Agent, Mill House Co., N. Y.

GREAT CONDITION REMEDY.

Besides their action upon the organs of the lungs, which they restore to perfect health, they have the great power of purifying the blood, and thereby removing all humors from the system. Indeed, one of the most important features in the operation of these Pills is their power to purify the blood, and by their influence upon this fluid, to thoroughly cleanse the system of all impurities. Whatever may be the nature of the disease, or wherever it may be seated, a few doses of these Pills will work a change in the whole system sufficient to drive it out. Hence they are the best remedy in the world for Scrofula, Erysipelas, Salt Rheum, Ringworm, Tetter, Boils, Pimples on the face, Blotches, Blood Poisons, Mercurial Diseases, Rheumatism, Dyspepsia, Liver Complaint, Dropsy, Female Weaknesses, Suppressions, Irregularities, Whites, Nervous Affections, Headache, Pain in the Side, Back and Limbs, Dizziness, Drowsiness, Dimness of Vision, Universal Lassitude of the Muscular System, Hysterics, Female Complaints, Sick Headache, Nervous Irritability, Fits, Nervous Weakness, Sleeplessness, Low Spirits, Blues, Melancholy, Indigestion, Want of Appetite, Jaundice, Affections of the Liver, Stomach and Kidneys, Pain in the Back, Dysentery, Diarrhœa, Bowel Complaints, Costiveness, Piles, Worms, Coughs, Colds, Influenza, Whooping Cough, Croup, Asthma, Bronchitis, Consumption in its first stages, Pain in the Breast, Liver Complaint, Dyspepsia, Loss of Appetite, Nausea, Heartburn, Disgust for Food, Fulness or Wind on the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Chest, Limbs and Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits, can be effectually cured by the use of this Sarsaparilla.

Dr. Townsend—Dear Sir—Nearly twenty years ago I took a cold which settled on my lungs and affected the severely named, Sixty it the cause of a most distressing cough, but not unfrequently I spit blood. I was induced to use your Sarsaparilla, and before I had taken one bottle I found relief. I have used it from time to time, and have become convinced that it is the most valuable medicine for all of the various diseases of the blood and system arising from an impure state of the blood, and particularly for those affections of the throat and lungs which are so frequently the cause of consumption. I have recommended it to many of my friends, and shall continue to do so, as I believe it to be the best blood purifier now before the public.

Yours truly, ISAAC PARKER.
